

"One of Australia's 25 most intriguing"

Sample Interview Questions

Success In Six Months

Your Accelerated Business Strategies theory suggests that any business can reach it's full potential in six months or less. How is that possible?

Identify The Problem

Why do so many businesses stall on their way to success?

What can you do if you have the Wrong Person in the Wrong Position and it's hurting your business?

What can you do if you have a Key Employee or Key Supplier holding you hostage?

Solutions

Your suggestions are very straightforward, but do you find that even with these strategies, business leaders are hesitant to change?

If you could give business leaders one piece of advice for taking their business to the next level, what would it be?

Potential

How will business leaders know if they've reached the Maximum Potential of their business?

"Business owners are wasting their lives!
Any business can reach its maximum
potential in six months. Why wait?"
